

### III. REMARKS

The present invention deals with a system where context based decisions are made in a mobile terminal. What the applicant has meant by the word "context based" is defined in the application from page 1, line 28, to page 2, line 10. There are various causes which can be used in the decision making process, i.e., the context includes non-location information.

The system of Hunzinger makes decisions based only on geographical location. Any other decision making cause is not mentioned in Hunzinger. The Examiner has also expressed this in the Official Action on page 2. A decision made only on geographical location does not anticipate the idea of context based decisions according to the present invention. This is said despite the fact that the geographical location can be one of the causes which can be used in the context based decision making system.

In order to clarify this, claims 1 and 6 now recite that the context includes non-location information. Since this is totally missing in Hunzinger, the rejection of claims 1-9 under 35 USC 102 on this reference should be reversed.

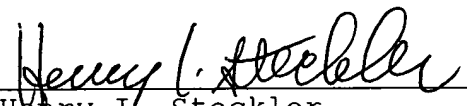

Further, since this is not suggested by Hunzinger, claims 1-9 are unobvious over it.

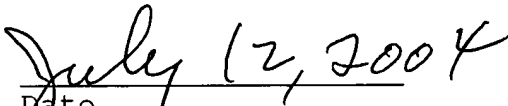

For all of the foregoing reasons, it is respectfully submitted that all of the claims now present in the application are clearly novel and patentable over the prior art of record, and are in proper form for allowance. Accordingly, favorable reconsideration and allowance is respectfully requested. Should

any unresolved issues remain, the Examiner is invited to call Applicants' attorney at the telephone number indicated below.

A check in the amount of \$110.00 is enclosed for a 1 month extension of time. The Commissioner is hereby authorized to charge payment for any fees associated with this communication or credit any over payment to Deposit Account No. 16-1350.

Respectfully submitted,

  
Henry I. Steckler
